Mehmet Keskin

Front End Developer

Toronto, Ontario   •   +1-236 513 8843   •   keskinnnmehmettt@gmail.com   •   mehmetkeskinn.github.io/portfoliom/

As a front-end developer with 3 years of experience, based in Toronto, Ontario, I am skilled in creating dynamic and user-friendly web applications using JavaScript and React. With experience in HTML, CSS, TailwindCSS, and feature flag-based deployment, I am proficient in building and deploying high-performing, scalable React applications. Additionally, my expertise in A/B testing, unit testing, and collaborating with multiple teams allows me to effectively communicate technical concepts to both technical and non-technical stakeholders. Passionate about technology, I am continuously seeking opportunities to expand my knowledge and expertise in React development while staying up-to-date with the latest development trends and technologies.

WORK EXPERIENCE

Front End Developer   June 2020 – Present
M&T Bank - Toronto, Ontario

- Developed high-performing, scalable React application following best practices.

- Worked closely with UX designers to create seamless user experiences across multiple devices.

- Collaborated with cross-functional teams to deliver high-quality application for our customers.

- Leveraged React Hooks to manage state and side effects in a clean and efficient manner, greatly simplifying the code and improving overall application performance.

- Effectively centralizing data management and providing a streamlined and efficient way to pass data between components without the need for prop drilling, utilizing React Context API.

- Implemented React Router to manage navigation and routing between different pages and components, with a focus on accessibility and user experience.

- Utilized advanced JavaScript concepts such as asynchronous programming and closures to optimize application performance.

- Utilized Jest for unit testing of React components, ensuring high-quality and reliable code.

- Implemented A/B testing to analyze data to optimize user experience and drive business results.

- Utilized feature flags for progressive delivery and controlled rollouts of new features.

- Mentored and provided leadership to new joiners, sharing knowledge and best practices, and fostering a positive and productive team culture, utilizing best practices for code reviews and code standards.

- Documented projects, ensuring clear and effective communication of project details and technical specifications to team members and stakeholders.

SKILLS

- React: Proficient in building and deploying high-performing, scalable React applications, utilizing React Hooks, Context API.

- JavaScript: Skilled in writing clean, maintainable, and efficient JavaScript code, utilizing ES6 features, such as arrow functions and destructuring.

- HTML/CSS: Strong knowledge of HTML, CSS and TailwindCSS, including responsive design and cross-browser compatibility.

- Feature Flag Based Deployment: Proficient in using feature flags for gradual and controlled rollouts of new features, to minimize risk and increase confidence.

- A/B Testing: Experienced in designing and conducting A/B tests to evaluate the effectiveness of different designs and features.

- Unit Testing: Skilled in writing unit tests using Jest or similar testing frameworks to ensure code reliability and quality, with a focus on test-driven development.

- Collaboration with Multiple Teams: Strong communication and collaboration skills, able to work effectively with cross-functional teams, including designers, product managers, and back-end developers.

- Leadership and Knowledge Transfer: Proven leadership skills and experience in mentoring and training, sharing knowledge and best practices, and fostering a positive and productive team culture, utilizing best practices for code reviews and code standards.

- Strong React development skills, with extensive experience in building high-performing and scalable web applications.

- Experience in Agile development methodology Scrum, with a focus on continuous integration and delivery.

- Up-to-date with the latest React development trends and technologies and continuously seek opportunities for improvement and innovation.

- Strong problem-solving skills, with the ability to troubleshoot complex technical issues and find creative solutions.

- Excellent communication and interpersonal skills, with the ability to effectively communicate technical concepts to both technical and non-technical stakeholders.

- Passionate about technology and continuously seeking opportunities to expand knowledge and expertise in React development.

EDUCATION

Bachelor of Science in International Relations   Oct 2014 – Jul 2018

Ankara University │ Ankara, Turkey
